### CITY PARK BOAT RAMP PROJECT UPDATE:

We received bad news in February about the Army Corps of Engineers permit that was submitted for approval in August 2021. They informed our engineer that they were still coordinating with other agencies and that work likely wouldn't be permitted until July of this year. Additionally, they indicated that if a permit is approved, it will not likely allow any construction to occur until after July 15th in order to protect fish habitat.

Given the timeline and river conditions, we hope the project will start in early Fall 2022.
